POLICY DOCUMENT ON ENVIRONMENT AND ENERGY USAGE

KLE Society's Science & Commerce College is committed to manage energy in such a systematic way so as to minimize its impact on the environment. The Environment and Energy usage policy of the College implies to explore the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solutions to the energy crisis.

This environment and energy policy is binding for all the components of the institution and applies to all its participants and to the various activities undertaken by the institution. It will help to implement efficiency and environmental awareness to conservation of natural resources and to limit its usage.

Policies:

- To assess our energy usage and measure its impact on the environment.
- To install solar panels for the generation of alternate energy.
- Turn off your monitor when you leave your table.
- Shut down the computer rather than logging off.
- Turn off unnecessary lights and use daylight instead.

- Use LED or compact fluorescent bulbs as much as possible.
- Switch off lights, fans in conference rooms, classrooms, and practical labs, when they are not in use. Avoid the use of decorative lighting.
- Use the fans only when they are needed.
- To conduct tree plantation drive.
- To monitor and respond to emerging environmental and energy issues.
- To strengthen our employees' and students' environmental knowledge and skills to improve our own environmental performance.
- To provide information and training opportunities on energy saving measures.
- To offer opportunities for employees and students to engage in initiatives which contribute to environmental protection.
